Name _____ Date _____ Block _____

Remember: Rational: stops or repeats. **Irrational:** never stops, never repeats. **9's rule:** $0.\overline{45} = \frac{45}{99}$. **Roots:** $\sqrt{81} = 9$, $\sqrt[3]{8} = 2$; trap a non-perfect root between perfect squares. **Order:** change everything to a decimal first ($2\frac{1}{4} = 2.25$).
