Exponent Rules (Multiplication & Division)

Targets: EE.1-2, EE.1-4, EE.1-1, EE.1-7, EE.1-5, EE.1-9, EE.1-8

Name _____ Date _____ Block _____

Remember: Same base, multiply → keep the base, **add** the exponents: $x^3 \cdot x^2 = x^5$. **Same base, divide** → keep the base, **subtract**: $\frac{x^7}{x^2} = x^5$. Monomials: multiply or divide the numbers, then use the rules on the letters: $(2x^3)(5x^4) = 10x^7$. $x = x^1$.
