HOMEWORK 7.1 · UNIT 7 · NC.8.SP.1

Scatter Plots

Targets: SP.1-2, SP.1-3, SP.1-4, SP.1-5, SP.1-6, SP.1-7, SP.1-9, SP.1-8

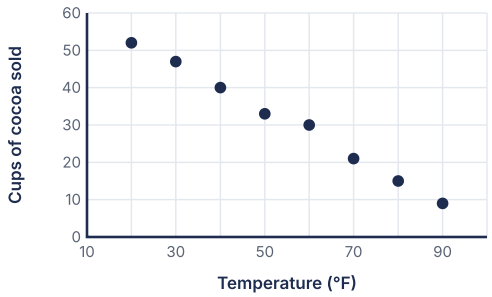

Name _____ Date _____ Block _____

Remember: Each dot is one (x, y) pair. **Positive**: as x goes up, y goes up. **Negative**: as x goes up, y goes down. **None**: no pattern. **Linear** = dots follow a line. **Non-linear** = dots follow a curve. **Outlier** = a dot far from the rest. **Cluster** = a group of dots close together. Ex: (4, 75) means 4 hours studied and a score of 75.

SCORE 3.0 Approaching · the basics

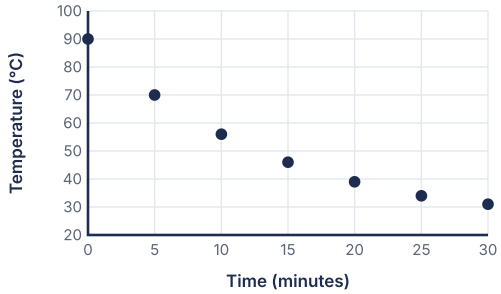

Targets: SP.1-2, SP.1-3, SP.1-4

1 A snack stand recorded the temperature and the cups of hot cocoa sold. What kind of association is shown? SP.1-2

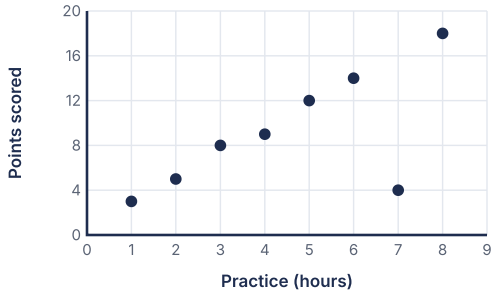

Ⓐ Positive Ⓑ Negative Ⓒ None

2 A cup of hot tea cools on the table. Is the pattern linear or non-linear? SP.1-3

Linear **Non-linear**

3 The plot shows hours of practice and points scored. Write the outlier as an ordered pair. SP.1-4

_____

4 Which pairs most likely have a **negative** association? SP.1-2

- ☐ Hours of TV and hours of sleep
- ☐ Height and shoe size
- ☐ Miles driven and gas left in the tank
- ☐ Shoe size and math grade
- ☐ Price of a ticket and tickets sold

Select all that apply.

5 A **cluster** is one dot that is far away from all the others. SP.1-4

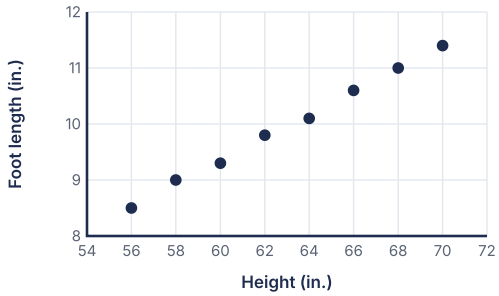

True **False**

SCORE 4.0 Proficient · on target

Targets: SP.1-5, SP.1-6, SP.1-7

SP.1-5

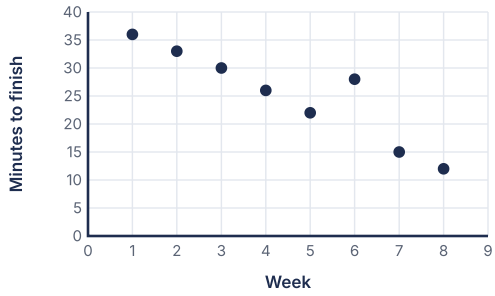

6 Eight friends measured their height and their foot length. Describe the association.

(A) Strong positive
(B) Weak positive
(C) Strong negative
(D) Weak negative

SP.1-6

7 **Lena** made a mistake. Circle it. Explain it. Fix it.

LENA'S WORK

The outlier is (1, 36)
because it is the highest dot.

SP.1-7

8 Plot A has dots tight around a rising line. Plot B has dots spread out around a rising line. Which is true?

(A) A and B are both strong.
(B) A is strong positive. B is weak positive.
(C) A is weak positive. B is strong positive.
(D) B has no association.

SCORE 5.0 Mastery · go deeper

Targets: SP.1-9, SP.1-8

SP.1-9

9 Would the number of pizzas ordered and the total cost (at $12 each) be linear or non-linear? Explain.

It is _____ because each pizza _____ .

SP.1-8

10 Jamal says a scatter plot of shoe size and test score would show a positive association. Do you agree? Explain.

I _____ because _____ , so the dots would _____ .
