HOMEWORK 7.5 · UNIT 7 · NC.8.SP.1 · NC.8.SP.3 · NC.8.SP.4 · NC.8.SP.2

Unit 7 Review

Targets: SP.1-2, SP.3-3, SP.4-2, SP.4-3, SP.3-2, SP.2-5, SP.4-4, SP.1-5, SP.4-7, SP.2-8

Name _____ Date _____ Block _____

Remember: Scatter plots: positive / negative / none; linear or non-linear; outliers and clusters. **Line of best fit** $y = mx + b$: m = rate of change, b = starting value. **Two-way tables**: relative frequency = count ÷ total; compare row (or column) percents to find an association.

SCORE 3.0 Approaching · the basics

Targets: SP.1-2, SP.3-3, SP.4-2, SP.4-3, SP.3-2

1 What kind of association does this plot show? REVIEW 7.1 SP.1-2

Ⓐ Positive Ⓑ Negative Ⓒ None

2 A model is $y = 6x + 10$. x = weeks, y = dollars saved. Predict the savings at week 4. REVIEW 7.2 SP.3-3

3 70 students were asked about phones and playing outside. How many students with **no phone** play outside daily? REVIEW 7.3 SP.4-2

	Plays outside daily	Does not	Total
Has a phone	12	28	**40**
No phone	18	12	**30**
Total	**30**	**40**	**70**

4 Use the phone table. What percent of **all** students play outside daily? Round to the nearest tenth. REVIEW 7.3 SP.4-3

Ⓐ 42.9% Ⓑ 60% Ⓒ 30% Ⓓ 75%

5 The y-intercept of a linear model is the value of y when $x = 0$. REVIEW 7.2 SP.3-2

True False

SCORE 4.0 Proficient · on target

Targets: SP.2-5, SP.4-4, SP.1-5

6 A line of best fit passes through (2, 20) and (6, 40). Write its equation.

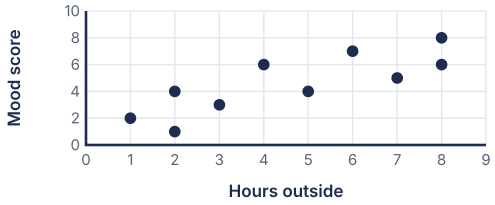

REVIEW 7.2 SP.2-5

7 Use the phone table. What percent of students with **no phone** play outside daily?

REVIEW 7.4 SP.4-4

8 **Kenji** made a mistake. Circle it. Explain it. Fix it.

REVIEW 7.1 SP.1-5

KENJI'S WORK

The dots are spread out.
So there is **no** association.

SCORE 5.0 Mastery · go deeper

Targets: SP.4-7, SP.2-8

9 Use the phone table. Is there an association between having a phone and playing outside daily? Use percents.

REVIEW 7.4 SP.4-7

With a phone _____ %. No phone _____ %. So _____ .

10 Two plots have the same line of best fit. In Plot A the dots are close to the line. In Plot B they are far from it. Which plot's line gives better predictions? Explain.

REVIEW 7.2 SP.2-8

Plot _____ because the dots _____ .
